Education

Malaviya National Institute of Technology, Jaipur

CGPA: 7.21

B.Tech in Electronics and Communication Engineering

2022 – 2026

Prince Uch Madhyamik Vidyalaya, Rajasthan

Percentage: 95.33

+2 Intermediate

2021

Tagore International School, Bhardra

Percentage: 93.8

Matriculation

2019

Work Experience

Bharti Airtel Limited

May 2025 – July 2025

Software Development Intern

- Developed a **RAG-powered AI customer support chatbot** using **Python**, **LangChain**, and **Gemini API** to resolve network outage queries, recharge issues, and complaint tickets for internal support agents.
- Built a **FAISS** vector knowledge base over 500+ Airtel FAQ documents and piped real-time tower status from **MySQL** into the retrieval context, enabling grounded, hallucination-resistant responses.
- Designed a **Flask + WebSocket** backend for real-time bidirectional chat with **Redis** session caching for concurrent users; implemented intent-based prompt routing across billing, outage, and plan-upgrade flows.
- Reduced average support query resolution time .

Projects

Wanderly – AI Trip Planner | *React, Gemini API, Firebase, Leaflet, OpenStreetMap, Tailwind CSS*

[GitHub](#) | [Live](#)

- Engineered a full-stack AI travel planner where **Gemini API** generates structured JSON day-wise itineraries with ordered stops, travel legs, timings, and budget notes; implemented schema validation and retry logic for reliable LLM output parsing.
- Integrated **Nominatim** for city autocomplete and rendered interactive route maps via **OpenStreetMap + Leaflet**; enriched stop cards with nearby hotels, restaurants, and attractions fetched from **Overpass API**.
- Implemented **Google OAuth** via Firebase Auth and **Firestore** for cross-session trip persistence; added a demo mode with mock data for offline UI preview without live credentials.

MDPS – Multiple Disease Prediction System | *Python, Streamlit, scikit-learn, pandas, pickle*

[GitHub](#) | [Live](#)

- Developed an end-to-end ML web app predicting **Diabetes, Heart Disease, and Parkinson's** from clinical parameters; trained, cross-validated, and benchmarked SVM, Logistic Regression, and Random Forest classifiers per disease.
- Built a **pandas** preprocessing pipeline covering feature scaling, missing-value imputation, and label encoding; serialized the best-performing model per disease via **pickle** for sub-100ms inference on **Streamlit Cloud**.
- Architected a multi-module **Streamlit** app with sidebar navigation enabling seamless switching between disease modules; achieved **95%+ accuracy** on held-out test sets across all three disease classifiers.

Technical Skills

Languages: C++, Python, JavaScript, SQL, HTML, CSS.

Frameworks & Libraries: React.js, Node.js, Express.js, Flask, LangChain, Socket.io, TailwindCSS, scikit-learn, pandas.

Databases & Caching: MongoDB, MySQL, Firebase Firestore, Redis, FAISS (vector store).

Tools & Platforms: Git, GitHub, AWS (EC2), Vercel, Render, Postman, Streamlit Cloud, VS Code.

APIs & Services: Gemini API, Overpass API, Twilio API, Google OAuth, RESTful APIs, WebSocket.

Concepts: Data Structures & Algorithms, System Design, RAG, OOPs, DBMS, ML Pipelines, Linux.

Achievements

- Secured **top 1%** rank in **JEE Mains** out of over **1 million** candidates.
- Solved **1000+** problems on [LeetCode](#) (Rating: **1790**) spanning arrays, DP, graphs, trees, and system design.
- **3-Star** coder on [CodeChef](#), ranked among the top competitive programmers on the platform.

Certifications

Full-Stack AI Engineer 2026: ML, Generative AI — Udemy

2026 – Present

Covers Python, Machine Learning, Deep Learning, MLOps, LLMs, and Generative AI through production-grade hands-on projects.

Positions of Responsibility

General Secretary: Film Making Club, Cultural Society, MNIT Jaipur — Managed club operations, coordinated events, and led a team of 20+ members across shoots and competitions.

Core Member: Marketing Team, *Blitzschlag* (Largest Cultural Fest of Rajasthan), MNIT Jaipur — Drove sponsorship outreach and executed promotional campaigns for 5000+ attendee annual fest.
